Ashish Tomer

Software Developer

Fast paced developer who codes performant, modular and reusable code with best coding practices in mind.

Personal Info

Place	Rotterdam, The Netherlands
Phone	+31 626141142, +91 7906178590
Email	ashishtomer@zoho.com
Github	github.com/ashishtomer
LinkedIn	linkedin.com/in/ashishtomer
Website	www.ashishtomer.com

Skills

Languages	Scala, Java, Javascript, Pytho
Databases	Cassandra, Mongodb, SQL DBs, Elasticsearch
Performance	Performance Tuning, Multithreading, Actor based applications, Code Metrics
Libraries	Akka Actors, Akka Streams, Spark(learning), Slick
DevOps (learning)	Jenkins, Docker, Kubernetes
Backend	Lagom Framework, Play Framework
Messaging	Apache Kafka
Front-end	HTML/CSS, Javascript, Bulma & Bootstrap, jQuery, d3.js, Vue.js
Others	Microservices, Unit Testing, Web Scraping, Linux, IntelliJ, Git and Github, Git flow, C/C++, Scrum
Soft skills	Confident, Well spoken, Result Oriented, Self learner

Formal Education

MCA	CDAC, Noida (2014-17)
BSc	University of Delhi (2010-13)
12th	Hindu Vidyapeeth School, Sonepat
10th	SM Hindu School, Sonepat

Projects & Experiences

Lunatech B.V. **August 2021 - present**
Working as a Scala, Java and Springboot developer. For the first time, I am working with Spring Boot framework so there is a lot to learn. The project is for the client MS Amlin, a UK headquartered insurance company.

Unify Technologies (Apple Inc) **June 19 -June 21**
Worked as Scala developer. Responsible for adding new features and fixing bugs in Plasma Connect- a scala, play, redis, elasticsearch and cassandra based system. It's a subsystem responsible for authenticating and authorizing users and microservices of *Apple Maps*. Plasma connect i) gives & revokes access to teams, users and resources ii) authenticates and authorizes users, with session and token management for different devices and environments.

Glassbeam Inc **June 18 - May 19**
Worked as a Data Engineer. Developed a highly performant, streamed and multithreaded microservice to read data from Cassandra and insert into Vertica DB using Scala, Akka, Kafka and Slick.

Knoldus Inc **Jan 17 - May 19**
Worked as Java 8 and Scala developer for RCCL, KnolPay and Freebird. Developed microservices with Java8, Scala, Elasticsearch, Cassandra, Postgres, Akka Actors, Play & Lagom, Slick Dao, GraphQL, Vue.js, Bulma, HTML/CSS. Developed payment gateways, flight booking and transaction management sub-systems.

To The New Digital **Jun 16 – Jul 16**
Learned new technologies as a summer intern. Worked on Java, Springboot and UI.
